*Highlife*<sup>®</sup> Collection NXT

# *Every Day Made Better®*

We made our first hot tub 40 years ago in an era when people just wanted to relax and have fun. Once a symbol of the free-spirited 1970s, hot tubs are for a new generation today. We build and design Hot Spring® spas for people who believe how they live each day defines them.

We believe our products can enhance your life. You might even say we think a Hot Spring® spa can give you a better life. Making that true for you is what defines us. Because we know when you spend time in your spa often, better things can happen.

Better health. Better sleep. Better relationships. Better perspective. Better (Fill in the blank).

If you aspire to be your best every day, then a Highlife® NXT spa is ideal for you. This exceptional collection of spas takes better to a new level.

## *Better Health & Better Sleep*

Regular hot tub use helps you be your best. Spending time in warm water can reduce stress, increase circulation and improve sleep. Set aside time to refocus. Start each day refreshed, then use the spa to unwind in the evening.

## *Better Relationships*

Your spa is a place where family and friends can come together. Relaxed and free from distractions, we let our guard down and open up to the people we care about most. We form meaningful bonds and connections that extend beyond spa time together.

## *Better Day (and Night)*

When you're enjoying your hot tub in the fresh, open air, it's easy to appreciate things like the changing morning light, or shooting stars. The experience can provide a sense of peace and perspective. Who knew that you could make your home even more special with a personal backyard retreat?

## *Better (Fill In the Blank)*

How will your Hot Spring spa make your days better? Share your experience with our community of passionate hot tub enthusiasts. Or just read what others are saying at [Hotspring.com/stories](https://hotspring.com/stories).

# Reach Beyond Ordinary

Breaking from the status quo is how you live your life. From maintaining a home that reflects pride of ownership to staying active and focused on health and well-being, every part of your life says, "I want what's best for me and my family." We do too.

## *A Revolutionary Design*

Four decades after we built our first spa, we revolutionized the concept of a hot tub with great design. Great design inspires. It fulfills and personalizes. It reaches us in ways we could not have predicted.

Great design enhances functionality, solves problems and simplifies. It elevates the ordinary to the realm of the extraordinary. When we set out to build a best-of-class spa, we partnered with Designworks, a BMW Group Company, a world-renowned design consultancy known and respected for its design innovation.

## *Leading the Way*

As the industry leader, we focus on providing customers with The Absolute Best Hot Tub Ownership Experience®. Since the beginning, we've propelled our industry from quirky redwood tubs to architecturally inspired, low maintenance, energy-efficient, hydrotherapy powerhouses.

Innovations like our Moto-Massage® DX jet, synthetic, low-maintenance siding, No-Fault® heater, dedicated circulation pump, and the ACE® Salt Water System are all industry firsts. We haven't just made owning a hot tub better, we've dramatically enhanced the spa ownership experience. And now we've redefined what a spa should look like with a fresh perspective and design expertise. Introduced in 2014, our popular Highlife® Collection NXT expands with two new model additions. We invite you to experience it for yourself.

# Creating A Truly Superior Spa

## The NXT Difference

Until now, most people considered a spa's exterior design as kind of ordinary. With the Highlife® Collection NXT spas, we have changed that perception. The visual impact of the new exterior design is stunning and surprisingly different.

Like the rest of the Highlife Collection, the NXT models feature beautifully sculpted shells and the rich, wood-grain finish of our Everwood® HD siding. NXT spas also include exclusive value-added features, like 100% no-bypass filtration and our one-of-a-kind Energy Smart® system that keeps operating costs to a minimum.

The exterior design is the distinct difference that separates NXT spas from other models in the Highlife Collection. The striking NXT is a much sleeker spa.

A recessed base pan, under-cabinet accent lighting and architectural corners create its unique "floating" effect. Like a piece of high-end furniture, the contemporary look of an NXT spa is unmatched in style and function. Don't be fooled by a design copycat—there is only one Highlife Collection NXT.

### **Polymeric Substructure**

The lightweight polymeric substructure provides outstanding support and excellent fit and finish.

### **Polymeric Base Pan**

The heavy-duty base pan features structural ribbing on the bottom that increases energy efficiency by minimizing ground contact.

## Spa Design, Elevated

Designed in partnership with Designworks, a BMW Group Company, NXT spas are sleek, contemporary, and cutting-edge.

**Designworks**  
A BMW Group Company

### **Unique Floating Effect**

The innovative design of the polymeric substructure and recessed base pan make the spa appear as if it is standing on its corners.

### **Large On/Ready Indicator Lights**

A sleek acrylic plate displays the Hot Spring® logo. Thoughtfully designed indicator lights reveal at a glance that the spa is on and ready for you, and serve as a convenient diagnostic tool.

### **Architectural Molded Corners**

For distinctive style, the trapezoidal shape creates a cascading effect from spa shell to base that is repeated throughout the spa's interior. An intricate textured finish adds depth and dimension.

### **Exterior and Under-cabinet Accent Lighting**

You can adjust the color and brightness of the spa's exterior lighting and set them to turn on and off at specific times. Under-cabinet accent lighting and each of the corner sconce lights integrate to create a dramatic impact.

## *Maintaining Spa Water Has Never Been Easier*

One of the myths about spa ownership is that keeping spa water balanced and clean can be a lot of work. Is it time consuming? Is it difficult? Do you need to be a chemist to get it right? No, no, and no.

When you choose an NXT spa from the Highlife® Collection, you not only get the best in spa design, you get The Absolute Best Hot Tub Ownership Experience®, day in and day out. Our exclusive, innovative water care systems keep your spa water fresh and crystal clear with very little maintenance.

### *100% No-Bypass Filtration and Tri-X® Filters*

In other spas, water bypasses the filters when the jets are on. Highlife Collection NXT spas include up to five filters, making it possible to run all the water through the filters, even when the jets are on—which is when filtered spa water is most important.

Our Tri-X filters use exclusive three-dimensional technology to filter more water than paper filters. They last longer and can be conveniently cleaned in your dishwasher.

## *The Exclusive ACE<sup>®</sup> Salt Water System*

Optional on all Highlife Collection NXT spas, this revolutionary, low-maintenance system cleans the water automatically.

### **MORE NATURAL**

Enjoy fewer chemicals and more natural spa water. Only the ACE system creates “active oxygen” and other powerful cleaners from just a little bit of salt and your spa water. So, there are fewer chemicals added.

### **SIMPLE CARE**

With easy-to-care-for spa water that looks, feels and smells great, you'll spend more time in a Hot Spring<sup>®</sup> spa.

### **FEELS BETTER**

Forget about the dry skin, irritated eyes or chlorine odor. Using patented diamond technology, only the ACE system eliminates contaminants that impact water quality.

# *Innovations in Energy Efficiency*

Concerned about the ongoing costs of operating your spa year-round? There is no need to worry with our exclusive Energy Smart® system. These energy-saving features are included on all HighLife® Collection NXT spas:

- Multiple layers of the same high-density polyurethane foam used in commercial freezers insulate the spa shell.
- Our dense foam covers are designed to ensure a custom fit and tight seal that prevent heat from escaping. A special hinge seal locks in heat at the center of the spa cover.
- Our SilentFlo 5000® pump continually circulates water, using less energy than a 40-watt light bulb.
- Powerful WaveMaster® jet pumps are activated only when the jets are needed. Our SmartJet® system directs water only to the jets you are using, saving even more energy.
- Our patented No-Fault® heater uses a unique titanium housing and heater element that maximize heat transfer to the water, and it is warranted for five years, regardless of water chemistry.
- An innovative, patented pump shroud transfers heat from the equipment compartment to the water for added efficiency.

## *Delivering Real Value*

Our Energy Smart system minimizes energy consumption and helps keep your operating costs extremely low. When you consider how frequently you use your spa and the important benefits you will enjoy, relative to the low monthly operating costs, you can see the tremendous value that a Hot Spring spa can provide you and your family.

Visit [HotSpring.com/Energy](https://HotSpring.com/Energy) to estimate your monthly energy costs.

### *Setting the Standard*

All Highlife Collection NXT spas are certified to the APSP 14 National Standard and the California Energy Commission (CEC) in accordance with California law.

# Details Make All the Difference

We put luxury and convenience at your fingertips with features that set you up for a better spa experience.

## Convenient Control

All the NXT models feature the latest in spa control technology—our wireless touchscreen remote control. The large, waterproof, color LCD touchscreen serves up intuitive icons and menus that are easy to read by day or night. Conveniently adjust spa functions from your favorite seat

inside the spa, or from up to 30 feet outside the spa.

## Luminescence® Multi-zone Lighting

It's a real glow-getter. All NXT models include a unique lighting system that lets you set the mood. Independently control the color and brightness of four programmable zones. Create a custom theme or set the corner sconces and under-cabinet accent lights (exterior zone) to diffuse pools of color onto your patio at dusk.

## Exterior Lighting

Set the stage. Program corner cabinetry sconce lights and under-cabinet accents in six colors, and from subtle to bright.

## The Exclusive BellaFontana®

You'll enjoy watching the light dance off this innovative water feature, whether you're relaxing inside the spa or spending time on the patio. The BellaFontana is included on all models except Jetsetter® NXT.

## *Worth the Price of Admission*

The Moto-Massage® DX jet is the perfect fix for what your body fights all day—gravity. Its two powerful streams of water sweep up and down your back, kneading and soothing thick muscle columns along the spine. There is no other jet like it. This Hot Spring® exclusive is featured on all Highlife® Collection NXT spas.

# Tune In and Chill Out

Make your Hot Spring® spa into the coolest entertainment destination on the block. You can with options like our CoolZone™ Hot Tub Cooling System, Connexion® Spa Monitoring System, and wireless entertainment.

## *Year-Round Enjoyment with CoolZone™*

With the CoolZone Hot Tub Cooling System, you can heat and cool your hot tub water—something that is not possible with most hot tubs. As a result, you and your family will use your hot tub more often throughout the year.

On a cool, crisp night, there's nothing like relaxing in your spa with soothing warm water swirling around you. On a hot and sunny day, however, a cool, refreshing dip can be just as nice.

The CoolZone system is a dealer-installed option on select models. Contact your Hot Spring dealer for installation requirements and information.

## *Wireless Sound System with Bluetooth® Technology*

Stream music from an online source or use your own library of songs. The choice is yours with our easy-to-use sound system, featuring Bluetooth wireless technology. The sound system features a powerful amplifier and optional subwoofer for increased volume and richer bass tones.

## *High-Definition Hot Tubbing*

Entertainment makes a big splash with an optional 22-inch high-definition display. HDMI and USB connectors accommodate a variety of streaming and cable devices. This monitor pairs with the optional wireless entertainment system.

Remote Spa Monitoring System

## *Peace of Mind, 24-hour Monitoring*

The innovative Connexion® remote spa monitoring system looks after your Hot Spring® spa when you can't. It gives you instant access to your spa controls from virtually anywhere in the world. If you're on the go, want to enjoy a spa at a second home, or simply want the peace of mind that your hot tub is being monitored, the Connexion system is the ideal solution.

This patented technology enables you and your Hot Spring dealer to monitor your spa, and our unique VirtualValet™ messaging feature alerts you and your dealer if your spa needs attention, so regular maintenance or service can be scheduled without delay—even when you are out of town.

## Contemporary Cabinet & Shell Design

The color, finish and materials experts at BMW Group Designworks helped us carefully select a distinctive palette of cabinet, shell and cover color options.

### Everwood® HD

This high-definition cabinet offers a rich, wood-grain finish, along with the low maintenance and durability of our original Everwood. NXT corners are molded in complementary shades to accent each cabinet color.

### Elegant Shell Colors

With expert insight, we selected unique colors that have broad appeal—ranging from traditional to modern tastes.
